

▶ MAKE THE MOST OF YOUR FACILITY

To utilize the most space in their storage and production facilities, more and more companies are looking for a better way to move items to mezzanines or upper/lower levels. CIP's Vertical Lifts and Lift Systems allow you to store and retrieve items safely and effectively at your convenience.

CIP's commitment to safety, quality and advanced technology proves our reputation in today's market as the industry leader for material lifts. Our lifts are built with safety foremost in mind and to the highest quality standards. Always code compliant, our lifts are dependable (100% duty cycle), never leak and are always economical. It's a no-brainer for utilizing space economically.

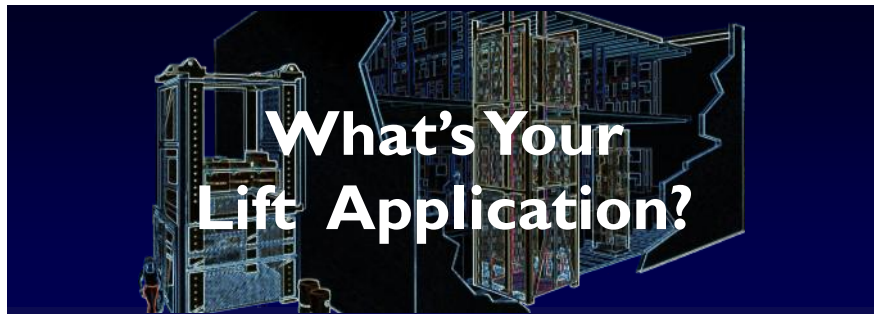

▶ DESIGNED BY YOU FOR YOU

Exclusive to CIP, our Intelitroll 2600 Digital Control Panel was designed by our customers for our customers.

After listening to the particular needs of this industry, we designed this user-friendly smart panel that digitally displays the status of the lift at all times. Technical Support and down-time is just about a thing of the past when using the Intelitroll. Imagine having no guesswork and no downtime with this 100% duty cycle lift.
